Definition of *school*: an organization that provides instruction

Few would take Miriam-Webster to task, *but...*school is so, so much more than an institution that provides instruction. **SCHOOL** cultivates social-emotional well-being and nurtures social responsibility. **School** inspires creative innovation and emboldens artistic expression. **School** develops abilities in problem-solving, collaboration, and critical thinking. **School** provides the instruction your student needs and the enrichment experiences they want. School, specifically North Bridge Academy, is giving students and their families hope for their future.

Our **School** meets the specific educational and social-emotional needs of dyslexic learners. Our students arrive often feeling defeated, anxious and with a sense of hopelessness about their future academic success. Our program changes that trajectory. All of our students transition to mainstream schools* with the tools they need to achieve their potential.

As we enter the season of giving, please consider a contribution in any amount to the North Bridge Academy Annual Fund. Your gift to our annual fund helps us to continue to deliver the *promise of hope* for our students.

Every donation, no matter the amount, is appreciated. Our goal is to have 100% family participation. Charitable foundations consider community participation in their decisions to award grants - many require 100% participation just to apply.

Donations may be made by check, or, for your convenience, you may donate online through the [Paypal link](#) on our website (*a service fee of 2.9% applies*). All donations are tax deductible.

Thank you in advance for any level of support you can provide to ensure that we can further realize the depth and breadth of the programs that make our **school**, North Bridge Academy, a top-notch learning experience for all our students; an organization they not only need but one that they also love.

With Gratitude,

North Bridge Academy Board of Directors
